Dear Louise,

On behalf of the Association and the local residents, I wish to thank you for the wonderful work you have organised in resurfacing our Local footpath "CW54".

The result is that local residents, some of whom are aged and schoolchildren attending the Junior School in Joy Lane are now able to use the pathway without fear of an accident and without getting 'plastered' in mud.

The pathway is also used by many Whitstable residents to gain access to 'Prospect Field' and the 'Saxon Shore' and I am sure that they are equally delighted with the result.

The contractors you have used 'EOS Civil Engineering' have carried out the work in both a professional and helpful manner. The residents have all commented on the way they have worked and the efforts made to keep both the site and local roadways clean at all times. On several occasions they have been seen sweeping the roads clean in darkness following a days work.

Again our sincere thanks.

John Wray – Chairman Alexandra Road Association.
